JOURNAL OF PERIODONTOLOGY

Subject index to Volume 59, Numbers 1 through 12 (1988)

A

ABRASION, AIR-POWDER
Effects of air-powder abrasive device used during periodontal flap surgery in dogs. Pippin, D. J. et al. 584

ABSCESS, PERIODONTAL
Fibrin and fibronectin sealing system in a guided tissue regeneration procedure. A case report. Prato, G. P. P. et al. 679

ABSTRACTS 17, 45, 72, 94, 111, 120, 163, 189, 201, 203–206, 273, 300, 314, 317, 325, 331, 341–344, 393, 438, 444, 456, 468, 471, 477–479, 534

ACTINOBACILLUS ACTINOMYCETHEMCOMITANS
Actinobacillus actinomycetemcomitans and *Bacteroides gingivalis* activate human peripheral monocytes to produce interleukin-1 and tumor necrosis factor. Lindemann, R. A. et al. 728
The comparative cytotoxicity of periodontal bacteria. Stevens, R. H. et al. 741
Comparison of cultural methods and DNA probe analyses for the detection of *Actinobacillus actinomycetemcomitans*, *Bacteroides gingivalis*, and *Bacteroides intermedius* in subgingival plaque samples. Savitt, E. D. et al. 431
Detection and distribution of *Actinobacillus actinomycetemcomitans* in the primary dentition. Alaluusua, S. et al. 504
Intragingival occurrence of *Actinobacillus actinomycetemcomitans* and *Bacteroides gingivalis* in active destructive periodontal lesions. Saglie, F. R. et al. 259

ACTINOMYCES ODONTOLYTICUS
The comparative cytotoxicity of periodontal bacteria. Stevens, R. H. et al. 741

AGRANULOCYTOSIS
Oral manifestations of agranulocytosis associated with methimazole therapy. Hou, G.-L. et al. 244

ALVEOLAR BONE
Clinical effects of electromagnetic stimulation as an adjunct to periondontal therapy. Steffensen, B. et al. 46
Effect of periodontal therapy on alveolar bone as measured by subtraction radiography. Schmidt, E. F. et al. 633

AMERICAN ACADEMY OF PERIONDONTOLOGY
Annual Meeting, 74th, 1988 vii, 480
Presidential address 198

AMERICAN BOARD OF PERIODONTOLOGY 107

AMINE FLUORIDES
The *in vitro* effects of amine fluorides on plaque bacteria. Kay, H. M. et al. 266

ANEMIA, FANCONI'S
Oral findings in Fanconi's anemia. A case report. Opinya, G. N. et al. 461

ANEMIA, SICKLE CELL
Periondontal disease in sickle cell disease subjects. Crawford, J. M. 164

ANESTHESIA, LOCAL
Assessment of stress during periodontal surgery with intravenous sedation and with local anesthesia only. Shepherd, S. R. et al. 147

ANNOUNCEMENTS 6, 22, 154, 237, 265, 296, 389, 543

ANTIBIOTICS
Influence of pulpal treatments on cell and tissue reactions in the marginal periodontium. Blomlöf, L. et al. 577

AUTOMATIC DATA PROCESSING
Automated classification of periodontal disease using bitewing radiographs. Hildebolt, C. F. et al. 87

B

BACTERIA
In situ correlative immuno-identification of mononuclear infiltrates and invasive bacteria in diseased gingiva. Saglie, F. R. et al. 688

BACTEROIDES GINGIVALIS
Actinobacillus actinomycetemcomitans and *Bacteroides gingivalis* activate human peripheral monocytes to produce interleukin-1 and tumor necrosis factor. Lindemann, R. A. et al. 728
The comparative cytotoxicity of periondontal bacteria. Stevens, R. H. et al. 741
Comparison of cultural methods and DNA probe analyses for the detection of *Actinobacillus actinomycetemcomitans*, *Bacteroides gingivalis*, and *Bacteroides intermedius* in subgingival plaque samples. Savitt, E. E. et al. 431
Intragingival occurrence of *Actinobacillus actinomycetemcomitans* and *Bacteroides gingivalis* in active destructive periodontal lesions. Saglie, F. R. et al. 259

BACTEROIDES INTERMEDIUS
The comparative cytotoxicity of periondontal bacteria. Stevens, R. H. et al. 741
Comparison of cultural methods and DNA probe analyses for the detection of *Actinobacillus actinomycetemcomitans*, *Bacteroides gingivalis*, and *bacteroides intermedius* in subgingival plaque samples. Savitt, E. D. et al. 431

BASEMENT MEMBRANE
An *in vitro* model to study bacterial invasion of periodontal tissues. Winkler, J. R. et al. 40

BEHCET'S DISEASE
The effect of cyclosporin A (CsA) treatment on gingival tissue of patients with Behcet's disease. Pisanty, S. et al. 599

BLOOD COAGULATION
Scanning electron microscopy observations of initial clot formation on treated root surfaces. Steinberg, A. D. et al. 403

BLOOD DISORDERS
Periodontal surgery for a patient with paroxysmal nocturnal hemoglobinuria. Cohen, C. I. et al. 115

BONE AND BONES
Effect of periodontal therapy on alveolar bone as measured by subtraction radiography. Schmidt, E. F. et al. 633

BONE LOSS
Regeneration of attachment apparatus lost due to disease of endodontic origin. Goldman, H. et al. 609
BONE LOSS, ALVEOLAR
The relationship of interradicular width and alveolar bone loss. A radiometric study of a periodontitis population. Heins, P. J. et al. 73
C
CALCIUM HYDROXIDE, therapeutic use
Influence of pulpal treatments on cell and tissue reactions in the marginal periodontium. Blomlöf, L. et al. 577
CALCULUS, adverse effects
The effect of retained subgingival calculus on healing after flap surgery. Fujikawa, K. et al. 170
CAPILLARIES, SUBEPITHELIAL
Ulstrastructural changes of subepithelial capillaries following graft epithelialization. Nobuto, T. et al. 570
CAPNOCYTOPHAGA SPUTIGENA
The comparative cytotoxicity of periodontal bacteria. Stevens, R. H. et al. 741
CARIES
Dental status of adults with and without periodontitis. Sewon, L. A. et al. 595
CELLS, LANGERHANS
Human gingival Langerhans cells as accessory cells in mitogen induced T cell response. Newcomb, G. M. et al. 811
CELLS MONONUCLEAR
In situ correlative immuno-identification of mononuclear infiltrates and invasive bacteria in diseased gingiva. Saglie, F. R. et al. 688
CEMENTUM
Histological study of the hydroxyapatite-collagen complex implants in periodontal osseous defects in dogs. Minabe, M. et al. 671
CEMENTUM, MICROBIOLOGY
Bacterial invasion in root cementum and radicular dentin of periodontally diseased teeth in humans. A reservoir of periodontopathic bacteria. Adriaens, P. A. et al. 222
Ultrastructural observations on bacterial invasion in cementum and radicular dentin of periodontally diseased human teeth. Adriaens, P. A. et al. 493
CEMENTUM, DEMINERALIZED
Growth and migration of gingival epithelial cells on mineralized and partially demineralized root surfaces in an *in vitro* system. Pitaru, S. et al. 531
CERAMIC, TRICALCIUM PHOSPHATE
The effect of supracrestal tricalcium phosphate ceramic-microfibrillar collagen grafting on postsurgical soft tissue levels. Blumenthal, N. M. 18
CHLORHEXIDINE
Use of antimicrobial containing acrylic strips in the treatment of chronic periodontal disease. A three month follow-up study. Addy, M. et al. 557
The use of chlorhexidine in the management of gingivitis in children. de la Rosa, M. et al. 387
CITRIC ACID
Clinical evaluation of the use of citric acid and autologous fibronectin in periodontal surgery. Caffesse, R. G. et al. 565
Collagen linkage in periodontal connective tissue reattachment—An ultrastructural study in beagle dogs. Selvig, K. A. et al. 758
Effect of citric acid treatment on the migration of epithelium on root surfaces *in vitro*. Larjava, H. et al. 95
COLLAGEN
Collagen linkage in periodontal connective tissue reattachment—An ultrastructural study in beagle dogs. Selvig, K. A. et al. 758
Histological study of the hydroxyapatite–collagen complex implants in periodontal osseous defects in dogs. Minabe, M. et al. 671
Partial regeneration of periodontal tissues using collagen barriers. Initial observations in the canine. Pitaru, S. et al. 380
The use of collagen membranes to guide regeneration of new connective tissue attachment in dogs. Blumenthal, N. M. 830
COLLAGEN, MICROFIBRILLAR
The effect of supracrestal tricalcium phosphate ceramic-microfibrillar collagen grafting on postsurgical soft tissue levels. Blumenthal, N. M. 18
An evaluation of new attachment formation using a microfibrillar collagen barrier. Tanner, M. G. et al. 524
COMPARISON STUDY
The comparative cytotoxicity of periodontal bacteria. Stevens, R. H. et al. 741
A comparison of the reactivity of *Eubacterium* species with localized and serum immunoglobulins from rapidly progressive and adult periodontitis patients. Martin, S. A. et al. 32
The effect of polishing pastes on composite resin surfaces. A SEM study, Serio, F. G. et al. 837
Evaluation of four modalities of periodontal therapy. Mean probing depth, probing attachment level and recession changes. Kaldahl, W. B. et al. 783
Evaluation of furcation region response to periodontal therapy. Kalkwarf, K. L. et al. 794
Evaluation of root-resected teeth. Results after 10 years. Bühler, H. 805
A longitudinal study comparing scaling, osseous surgery and modified Widman procedures. Results after one year. Becker, W. et al. 351
COMPOSITE RESINS
The effect of polishing pastes on composite resin surfaces. A SEM study. Serio, F. G. et al. 837
CONCANAVALIN
Penetration and uptake of colloidal gold–labeled concanavalin A in the junctional epithelium of the rat. Takata, T. et al. 823
CONNECTIVE TISSUE
Penetration and uptake of colloidal gold–labeled concanavalin A in the junctional epithelium of the rat. Takata, T. et al. 823
CONNECTIVE TISSUE, attachment
Clinical effects of electromagnetic stimulation as an adjunct to periodontal therapy. Steffensen, B. et al. 46
The effect of nicotine on the attachment of human fibroblasts to glass and human root surfaces *in vitro*. Raulin, L. A. et al. 318
An evaluation of new attachment formation using a microfibrillar collagen barrier. Tanner, M. G. et al. 524
Factors associated with occurrence and reversibility of connective tissue attachment loss. Zappa, U. E. et al. 100
Initial wound healing attachments to demineralized dentin. Hanes, P. J. et al. 176
New attachment achieved by guided tissue regeneration

in beagle dogs. Caffesse, R. G. et al. 589
New attachment formation following controlled tissue regeneration using biodegradable membranes. Magnusson, I. et al. 1
The use of collagen membranes to guide regeneration of new connective tissue attachment in dogs. Blumenthal, N. M. 830
CONNECTIVE TISSUE, microbiology
Factors associated with occurrence and reversibility of connective tissue attachment loss. Zappa, U. E. et al. 100
An *in vitro* model to study bacterial invasion of periodontal tissues. Winkler, J. R. et al. 40
CONNECTIVE TISSUE, morphometric analysis
Cell populations associated with conversion from bleeding to nonbleeding gingiva. Caton, J. et al. 7
CONNECTIVE TISSUE, proliferation
Quantitation of phagocytic cells in phenytoin–induced connective tissue proliferation in the rat. Dill, R. E. et al. 190
CONNECTIVE TISSUE, regeneration
Collagen linkage in periodontal connective tissue reattachment. An ultrastructural study in beagle dogs. Selvig, K. A. et al. 758
New attachment formation following controlled tissue regeneration using biodegradable membranes. Magnusson, I. et al. 1
CROHN'S DISEASE
Abnormal lymphocyte profiles and leukotriene B4 status in a patient with Crohn's disease and severe periodontitis. Engel, L. D. et al. 841
CURRETAGE
Clinical and microbiological effects of local tetracycline irrigation on periodontitis. Silverstein, L. et al. 301
Hand versus ultrasonic instrumentation in the removal of endotoxins from root surfaces *in vitro*. Checchi, L. et al. 398
A longitudinal study comparing scaling, osseous surgery and modified Widman procedures. Results after one year. Becker, W. et al. 351
Root curettage and gingival repair in periodontitis. Biagini, G. et al. 124
CYCLOSPORIN A, therapeutic use
The effect of cyclosporin A (CsA) treatment on gingival tissue of patients with Behcet's disease. Pisanty, S. et al. 599

D

DELIVERY OF DENTAL CARE
Who uses the services of specialists? Waldman, H. B. 326
DENTAL IMPRESSION MATERIALS, adverse effects
Severe gingival damage after polysiloxane impression procedures. A case report. Shapiro, N. 769
DENTAL IMPRESSION PROCEDURES, adverse effects
Severe gingival damage after polysiloxane impression procedures. A case report. Shapiro, N. 769
DENTAL INSTRUMENTS
Effects of air–powder abrasive device used during periodontal flap surgery in dogs. Pippin, D. J. et al. 584
DENTAL PULP DISEASES, complications
Influence of pulpal treatments on cell and tissue reactions in the marginal periodontium. Blomlöf, L. et al. 577
Regeneration of attachment apparatus lost due to disease of endodontic origin. Goldman, H. et al. 609
DENTAL PULP DISEASES, etiology
Ultrastructural observations on bacterial invasion in cementum and radicular dentin of periodontally diseased human teeth. Adriaens, P. A. et al. 493
DENTAL PULP DISEASES, therapy
Treatment of endodontically and periodontally involved teeth. A case report. Barkhordar, R. A. 469
DENTAL RECORDS
Presence of periodontal data in patient record of general practitioners. McFall, W. T., Jr. et al. 445
DENTIFRICE
Six–month effects of a sanguinarine dentifrice on plaque and gingivitis. Mauriello, S. M. et al. 238
DENTIN, demineralization
Initial wound healing attachments to demineralized dentin. Hanes, P. J. et al. 176
Tissue interactions with dentin specimens after demineralization using tetracycline. Frantz, B. et al. 714
DENTIN, radicular
Bacterial invasion in root cementum and radicular dentin of periodontally diseased teeth in humans. A reservoir of periodontopathic bacteria. Adriaens, P. A. 222
Ultrastructural observations on bacterial invasion in cementum and radicular dentin of periodontally diseased human teeth. Adriaens, P. A. et al. 493
DENTITION, microbiology
Detection and distribution of *Actinobacillus actinomycetemcomitans* in the primary dentition. Alaluusua, S. et al. 504
DENTURE, PARTIAL, FIXED
Bilateral subpontic osseous hyperplasia. A case report. Takeda, Y. et al. 311
DIABETES MELLITUS
CPITN Assessment of periodontal disease in diabetic patients. Bačić, M. et al. 816
Microbiological and immunological studies of adult periodontitis in patients with noninsulin–dependent diabetes mellitus. Zambon, J. J. et al. 23
DIFLUNISAL
Evaluation of preoperative diflunisal for postoperative pain following periodontal surgery. Minutello, J. S. et al. 390
DOWN's SYNDROME
Microbiological and clinical effects of surgery plus doxycycline on juvenile periodontitis. Mandell, R. L. et al. 373
Nonspecific and specific responses in a child with Down's syndrome and her sibling. A case report. Reuland–Bosma, W. et al. 249

E

EDITORIAL 631
EIKENELLA CORRODENS
The comparative cytotoxicity of periodontal bacteria. Stevens, R. H. et al. 741
ELECTROMAGNETIC STIMULATION
Clinical effects of electromagnetic stimulation as an adjunct to periodontal therapy. Steffensen, B. et al. 46
EMPHYSEMA
Subcutaneous facial emphysema secondary to use of the Cavi–Jet. Finlayson, R. S. et al. 315
ENDOTOXINS
Hand versus ultrasonic instrumentation in the removal of endotoxins from root surfaces *in vitro*. Checchi, L. et al. 398

ENZYMES
Enzyme activity in crevicular fluid for detection and prediction of clinical attachment loss in patients with chronic adult periodontitis. Six month results. Lamster, I. B. et al. 516
EPITHELIAL MIGRATION
Effect of citric acid treatment on the migration of epithelium on root surfaces *in vitro*. Larjava, H. et al. 95
An evaluation of new attachment formation using a microfibrillar collagen barrier. Tanner, M. G. et al. 524
Growth and migration of gingival epithelial cells on mineralized and partially demineralized root surfaces in an *in vitro* system. Pitaru, S. et al. 531
EPITHELIUM
The effects of exclusion of epithelium from healing periodontal pockets. McHugh, W. D. 750
Penetration and uptake of colloidal gold–labeled concanavalin A in the junctional epithelium of the rat. Takata, T. et al. 823
EUBACTERIUM
A comparison of the reactivity of *Eubacterium* species with localized and serum immunoglobulins from rapidly progressive and adult periodontitis patients. Martin, S. A. et al. 32

F

FIBRIN
Fibrin and fibronectin sealing system in a guided tissue regeneration procedure. A case report. Prato, G. P. P. et al. 679
FIBROBLASTS
The effect of nicotine on the attachment of human fibroblasts to glass and human root surfaces *in vitro*. Raulin, L. A. et al. 318
FIBROLIPOMA
Fibrolipoma of the gingiva. A case report. Graham, G. S. et al. 118
FIBROMA, GIANT CELL
Giant cell fibroma. A case presentation and review. Swan, R. H. 338
FIBRONECTIN
Clinical evaluation of the use of citric acid and autologous fibronectin in periodontal surgery. Caffesse, R. G. et al. 565
Fibrin and fibronectin sealing system in a guided tissue regeneration procedure. A case report. Prato, G. P. P. et al. 679
FURCATION THERAPY
The use of a porous hydroxylapatite implant in periodontal defects. II. Treatment of Class II furcation lesions in lower molars. Kenney, E. B. et al. 67
FUSOBACTERIUM NUCLEATUM
The comparative cytotoxicity of periodontal bacteria. Stevens, R. H. et al. 741

G

GINGIVA
Penetration and uptake of colloidal gold–labeled concanavalin A in the junctional epithelium of the rat. Takata, T. et al. 823
Severe gingival damage after polysiloxane impression procedures. A case report. Shapiro, N. 769
GINGIVA, anatomy
In situ lymphocyte subpopulations from active versus stable periodontal sites. Reinhardt, R. A. et al. 656
Specialized postcapillary venules in human gingival tissue. Wynne, S. E. et al. 328
GINGIVA, bleeding
Associations between bleeding and visual signs of interdental gingival inflammation. Caton, J. et al. 722
Cell populations associated with conversion from bleeding to nonbleeding gingiva. Caton, J. et al. 7
Effect of personal oral hygiene on bleeding interdental gingiva. Histologic changes. Bouwsma, O. et al. 80
GINGIVA, cell population
Cell populations associated with conversion from bleeding to nonbleeding gingiva. Caton, J. et al. 7
The effect of cyclosporin A (CsA) treatment on gingival tissue of patients with Behcet's disease. Pisanty, S. et al. 599
GINGIVA, growth
Development of gingiva following surgical exposure of a facially positioned unerupted incisor. Lundberg, M. et al. 652
GINGIVA, nonbleeding
Associations between bleeding and visual signs of interdental gingival inflammation. Caton, J. et al. 722
Cell populations associated with conversion from bleeding to nonbleeding gingiva. Caton, J. et al. 7
GINGIVA, surgery
Microvascularization of the free gingival autograft. Nobuto, T. et al. 639
GINGIVAL CREVICULAR FLUID
Enzyme activity in crevicular fluid for detection and prediction of clinical attachment loss in patients with chronic adult periodontitis. Six month results. Lamster, I. B. et al. 516
GINGIVAL INDEX
Testing reliability of plaque and gingival indices. Two methods. Nordstrom, N. K. et al. 270
GINGIVAL NEOPLASMS
Fibrolipoma of the gingiva. A case report. Graham, G. S. et al. 118
GINGIVAL POCKETS
Root curettage and gingival repair in periodontitis. Biagini, G. et al. 124
GINGIVITIS
Effect of personal oral hygiene on bleeding interdental gingiva. Histologic changes. Bouwsma, O. et al. 80
GINGIVITIS, diagnosis
Associations between bleeding and visual signs of interdental gingival inflammation. Caton, J. et al. 722
Histological characteristics associated with suppurating periodontal pockets. A case report. Passo, S. A. et al. 731
Primary gingival enlargement as a diagnostic indicator in acute myelomonocytic luekemia. A case report. Hou, G.-L. et al. 852
GINGIVITIS, drug therapy
Six-month effects of a sanguinarine dentifrice on plaque and gingivitis. Mauriello, S. M. 238
The use of chlorhexidine in the management of gingivitis in children. de la Rosa, M. et al. 387
GLUCOSE TOLERANCE
Microbiological and immunological studies of adult periodontitis in patients with noninsulin-dependent diabetes mellitus. Zambon, J. J. et al. 23
GRAFTS
Antigenicity of freeze-dried cortical bone allograft in human periodontal osseous defects. Quattlebaum, J.

B. et al. 394
The effect of supracrestal tricalcium phosphate ceramic–microfibrillar collagen grafting on postsurgical soft tissue levels. Blumenthal, N. M. 18
Microvascularization of the free gingival autograft. Nobuto, T. et al. 639
Ultrastructural changes of subepithelial capillaries following graft epithelialization. Nobuto, T. et al. 570
GRANULOMA, EOSINOPHILIC
Solitary eosinophilic granuloma (Histiocytosis X) of the gingiva. A report of two cases. Finney, D. S. et al. 457

H

HEMOGLOBIN SC DISEASE
Periodontal disease in sickle cell disease subjects. Crawford, J. M. 164
HISTIOCYTOSIS X
Solitary eosinophilic granuloma (Histiocytosis X) of the gingiva. A report of two cases. Finney, D. S. et al. 457
HYDROXYLAPATITE
Histological study of the hydroxyapatite–collagen complex implants in periodontal osseous defects in dogs. Minabe, M. et al. 671
The use of a porous hydroxylapatite implant in periodontal defects. II. Treatment of Class II furcation lesions in lower molars. Kenney, E. B. et al. 67
HYDROXYPROLINE
The effect of cyclosporin A (CsA) treatment on gingival tissue of patients with Behcet's disease. Pisanty, S. et al. 599
HYPERPLASIA, melanotic
Intraoral melanoacanthoma: a reactive melanocytic hyperplasia. Case report. Wright, J. M. 53
HYPERPLASIA, osseous
Bilateral subpontic osseous hyperplasia. A case report. Takeda, Y. et al. 311
HYPERTENSION, BENIGN INTRACRANIAL. *see* PSEUDOTUMOR CEREBRI.

I

IMMUNE RESPONSE
Nonspecific and specific immune responses in a child with Down's syndrome and her sibling. A case report. Reuland–Bosma, W. et al. 249
IMMUNOGLOBULINS
A comparison of the reactivity of *Eubacterium* species with localized and serum immunoglobulins from rapidly progressive and adult periodontitis patients. Martin, S. A. et al. 32
IMPLANT MATERIALS
Histological study of the hydroxyapatite–collagen complex implants in periodontal osseous defects in dogs. Minabe, M. et al. 671
IMPLANTS, bone
Antigenicity of freeze–dried cortical bone allograft in human periondontal osseous defects. Quattlebaum, J. B. et al. 394
IMPLANTS, hydroxylapatite
The use of a porous hydroxylapatite implant in periodontal defects. II. Treatment of Class II furcation lesions in lower molars. Kenney, E. B. et al. 67
IMPLANTS, osseointegrated
Osseointegrated oral implants. A Swedish multicenter study of 8139 consecutively inserted Nobelpharma implants. Albrektsson, T. et al. 287
IMPLANTS, porous
The use of a porous hydroxylapatite implant in periodontal defects. II. Treatment of Class II furcation lesions in lower molars. Kenney, E. B. et al. 67
IN MEMORIAM
Carranza, Fermin A., Sr. 515
Eskow, A. B. 243
Hoffman, I. D. 379
Hrabak, R. P. 248
Levy, B. P. 379
Mills, Se. E. 365
Ochstein, A. J. 248
Voigt, J. P. 365
INCISOR
Development of gingiva following surgical exposure of a facially positioned unerupted incisor. Lundberg, M. et al. 652
Facial radicular groove in a maxillary central incisor. A case report. Kozlovsky, A. et al. 615
INFORMATION FOR CONTRIBUTORS 56, 130, 414, 484
INTERLEUKIN
Actinobacillus actinomycetemcomitans and *Bacteroides gingivalis* activate human peripheral monocytes to produce interleukin-1 and tumor necrosis factor. Lindemann, R. A. et al. 728

J

Journal of Periodontology (Editorial) 631
JUVENILE PERIODONTITIS. *see* PERIODONTITIS, JUVENILE

L

LETTERS TO THE EDITOR 202, 412, 413, 618
LEUKEMIA, lymphocytic
Rapidly progressive acute periodontal infection in a patient with acute leukemia. Stansbury, D. M. et al. 544
LEUKEMIA, myelomonocytic
Primary gingival enlargement as a diagnostic indicator in acute myelomonocytic leukemia. A case report. Hou, G.–L. et al. 852
LEUKEMIA, nonlymphocytic
Acute nonlymphocytic leukemia, monocytic variant. Report of a case. Appel, B. N. et al. 464
LEUKOTRIENE B4
Abnormal lymphocyte profiles and leukotriene B4 status in a patient with Crohn's disease and severe periodontitis. Engel, L. D. et al. 841
LIPOLYSACCHARIDES
Lipopolysaccharide–stimulated PGE2 release from human monocytes. Comparison of lipopolysaccharides prepared from suspected periondontal pathogens. Garrison, S. W. et al. 684
LONGITUDINAL STUDY
Enzyme activity in crevicular fluid for detection and prediction of clinical attachment loss in patients with chronic adult periodontitis. Six month results. Lamster, I. B. et al. 516
Evaluation of four modalities of periodontal therapy. Mean probing depth, probing attachment level and recession changes. Kaldahl, W. B. et al. 783
Evaluation of furcation region response to periodontal therapy. Kalkwarf, K. L. et al. 794
Evaluation of root–resected teeth. Results after 10 years. Bühler, H. 805
A longitudinal study comparing scaling, osseous surgery and modified Widman procedures. Results after one

year. Becker, W. et al. 351
Osseointegrated oral implants. A Swedish multicenter study of 8139 consecutively inserted Nobelpharma implants. Albrektsson, T. et al. 287
Tooth loss in 1535 treated periodontal patients. Nabors, C. L. et al. 297
LYMPHOCYTES
Abnormal lymphocyte profiles and leukotriene B4 status in a patient with Crohn's disease and severe periodontitis. Engel, L. D. et al. 841
In situ lymphocyte subpopulations from active versus stable periodontal sites. Reinhardt, R. A. et al. 656

M

MAXILLARY SINUS MUCOSA, radiography
Radiographic evaluation of the effect of initial periodontal therapy on thickness of the maxillary sinus mucosa. Engstrom, H. et al. 604
MELANOACANTHOMA
Intraoral melanoacanthoma: A reactive melanocytic hyperplasia. Case report. Wright, J. M. 53
MEMBRANES, biodegradable
New attachment formation following controlled tissue regeneration using biodegradable membranes. Magnusson, I. et al. 1
MEMBRANES, polylactic acid
New attachment formation following controlled tissue regeneration using biodegradable membranes. Magnusson, I. et al. 1
METHIMAZOLE
Oral manifestations of agranulocytosis associated with methimazole therapy. Hou, G.-L. et al. 244
METRONIDAZOLE
Effects of periodontal therapy on alveolar bone as measured by subtraction radiography. Schmidt. E. F. et al. 633
Factors associated with occurrence and reversibility of connective tissue attachment loss. Zappa, U. E. et al. 100
Use of antimicrobial containing acrylic strips in the treatment of chronic periodontal disease. A three month follow-up study. Addy, M. et al. 557
MICROBIOLOGICAL METHODS
Microbiologic assessments to enhance periodontal diagnosis. Greenstein, G. 508
MICROCIRCULATION
Microvascularization of the free gingival autograft. Nobuto, T. et al. 639
MICROSCOPY, ELECTRON
Comparison of scanning and transmission electron microscopy of the epithelial pocket wall in juvenile and adult periodontitis. Shafik, S. S. et al. 535
MICROVASCULARIZATION
Microvascularization of the free gingival autograft. Nobuto, T. et al. 639
MINOCYCLINE HYDROCHLORIDE
Pigmentation of the jawbones and teeth secondary to minocycline hydrochloride therapy. Cale, A. E. et al. 112
MODELS
An *in vitro* model to study bacterial invasion of periodontal tissues. Winkler, J. R. et al. 40
Distributions of periodontal attachment levels. Mathematical models and implications. Cohen, M. E. et al. 254
Problems of genetic model testing in early onset periodontitis. Boughman, J. A. et al. 332
MONOCYTES
Human gingival Langerhans cells as accessory cells in mitogen induced T cell responses. Newcomb, G. M. et al. 811
Lipopolysaccharide-stimulated PGE2 release from human monocytes. Comparison of lipopolysaccharides prepared from suspected periodontal pathogens. Garrison, S. W. et al. 684
MYCOPLASMA PNEUMONIAE
Detection of *Mycoplasma pneumoniae-DNA* within diseased gingiva by *in situ* hybridization using a biotin-labeled probe. Saglie, R. et al. 121

N

NICOTINE
The effect of nicotine on the attachment of human fibroblasts to glass and human root surfaces *in vitro*. Raulin, L. A. et al. 318

O

ORAL HEALTH INDEX
Dental status of adults with and without periodontitis. Sewon, L. A. et al. 595
ORAL HYGIENE
Effect of personal oral hygiene on bleeding interdental gingiva. Histologic changes. Bouwsma, O. et al. 80
ORAL IRRIGATION
Clinical and microbiological effects of local tetracycline irrigation on periodontitis. Silverstein, L. et al. 301
Ultrastructural examination of human periodontal pockets following the use of an oral irrigation device *in vivo*. Cobb, C. M. et al. 155
ORBAN COMPETITION, 1987 478
ORTHODONTIC APPLIANCES, adverse effects
Severe localized destruction of the periodontium secondary to subgingival displacement of an elastic band. Report of a case. Marino, V. A. et al. 472

P

PAIN, POSTOPERATIVE
A comparison of mandibular lingual surgical flaps with and without a vertical release incision. Lynch, T. J. et al. 12
Evaluation of preoperative diflunisal for postoperative pain following periodontal surgery. Minutello, J. S. et al. 390
PAROXYSMAL NOCTURNAL HEMOGLOBINURIA
Periodontal surgery for a patient with paroxysmal nocturnal hemoglobinuria. Cohen, C. I. et al. 115
PEMPHIGUS VULGARIS
Penphigus vulgaris presenting as a gingival lesion. A case report. Barnett, M. L. 611
PERIODONTAL ATTACHMENT
Change in attachment level. Gunsolley, J. C. et al. 450
Distributions of periodontal attachment levels. Mathematical models and implications. Cohen, M. E. et al. 254
Enzyme activity in crevicular fluid for detection and prediction of clinical attachment loss in patients with chronic adult periodontitis. Six month results. Lamster, I. B. et al. 516
An evaluation of new attachment formation using a microfibrillar collagen barrier. Tanner, M. G. et al. 524

New attachment achieved by guided tissue regeneration in beagle dogs. Caffesse, R. G. et al. 589
Regeneration of attachment apparatus lost due to disease of endodontic origin. Goldman, H. et al. 609
Systematic errors in estimating prevalence and severity of periodontal disease. Kingman, A. et al. 707
Tissue interactions with dentin specimens after demineralization using tetracycline. Frantz, B. et al. 714

PERIODONTAL DISEASES
Microbiological and clinical effects of surgery plus doxycycline on juvenile periodontitis. Mandell, R. L. et al. 373

PERIODONTAL DISEASES, adverse effects
In situ lymphocyte subpopulations from active versus stable periodontal sites. Reinhardt, R. A. et al. 656
Retained "hopeless" teeth. Effects on the proximal periodontium of adjacent teeth. DeVore, C. H. et al. 647
Tooth loss in 1535 treated periodontal patients. Nabors, C. L. et al. 297

PERIODONTAL DISEASES, classification
Automated classification of periodontal disease using bitewing radiographs. Hildebolt, C. F. et al. 87

PERIODONTAL DISEASES, diagnosis
Histological characteristics associated with suppurating periodontal pockets. A case report. Passo, S. A. et al. 731
Microbiologic assessments to enhance periodontal diagnosis. Greenstein, G. 508
Presence of periodontal data in patient records of general practitioners. McFall, W. T., Jr. et al. 445
Systematic errors in estimating prevalence and severity of periodontal disease. Kingman, A. et al. 707

PERIODONTAL DISEASES, drug therapy
Tetracycline therapy in patients with early juvenile periodontitis. Novak, M. J. et al. 366
Use of antimicrobial containing acrylic strips in the treatment of chronic periodontal disease. A three month follow-up study. Addy, M. et al. 557

PERIODONTAL DISEASES, etiology
Influence of pulpal treatments on cell and tissue reactions in the marginal periodontium. Blomlöf, L. et al. 577
Severe localized destruction of the periodontium secondary to subgingival displacement of an elastic band. Report of a case. Marino, V. A. et al. 472

PERIODONTAL DISEASES, microbiology
Bacterial invasion in root cementum and radicular dentin of periodontally diseased teeth in humans. A reservoir of periodontopathic bacteria. Adriaens, P. A. et al. 222
The comparative cytotoxicity of periodontal bacteria. Stevens, R. H. et al. 741
Detection of *Mycoplasma pneumoniae–DNA* within diseased gingiva by *in situ* hybridization using a biotin–labeled probe. Saglie, R. et al. 121
An *in vitro* model to study bacterial invasion of periodontal tissues. Winkler, J. R. et al. 40
Intragingival occurrence of *Actinobacillus actinomycetemcomitans* and *Bacteroides gingivalis* in active destructive periodontal lesions. Saglie, F. R. et al. 259
Microbiologic assessments to enhance periodontal diagnosis. Greenstein, G. 508
A rationale for monitoring the periodontal microbiota after periodontal treatment. Listgarten, M. A. 439
Ultrastructural observations on bacterial invasion in cementum and radicular dentin of peridontally diseased human teeth. Adriaens, P. A. et al. 493
Use of antimicrobial containing acrylic strips in the treatment of chronic periodontal disease. A three month follow-up study. Addy, M. et al. 557

PERIODONTAL DISEASES, occurrence
Periodontal disease in sickle cell disease subjects. Crawford, J. M. 164
Systematic errors in estimating prevalence and severity of periodontal disease. Kingman, A. et al. 707

PERIODONTAL DISEASES, pathogenesis
Lipopolysaccharide–stimulated PGE2 release from human monocytes. Comparison of lipopolysaccharides prepared from suspected periodontal pathogens. Garrison, S. W. et al. 684
Rapidly progressive acute periodontal infection in a patient with acute leukemia. Stansbury, D. M. et al. 544

PERIODONTAL DISEASES, radiography
Automated classification of periodontal disease using bitewing radiographs. Hildebolt, C. F. et al. 87

PERIODONTAL DISEASES, surgery
Assessment of stress during periodontal surgery with intravenous sedation and with local anesthesia only. Shepherd, S. R. et al. 147
Clinical evaluation of the use of citric acid and autologous fibronectin in periodontal surgery. Caffesse, R. G. et al. 565
Collagen linkage in periodontal connective tissue reattachment. An ultrastructural study in beagle dogs. Selvig, K. A. et al. 758
Evaluation of four modalities of periodontal therapy. Mean probing depth, probing attachment level and recession changes. Kaldahl, W. B. et al. 783
Evaluation of furcation region response to periodontal therapy. Kalkwarf, K. L. et al. 794
Evaluation of preoperative diflunisal for postoperative pain following periodontal surgery. Minutello, J. S. et al. 390
A longitudinal study comparing scaling, osseous surgery and modified Widman procedures. Results after one year. Becker, W. et al. 351
Periodontal surgery for a patient with paroxysmal nocturnal hemoglobinuria. Cohen, C. I. et al. 115

PERIODONTAL DISEASES, therapy
Antigenicity of freeze–dried cortical bone allograft in human periodontal osseous defects. Quattlebaum, J. B. et al. 394
Clinical effects of electromagnetic stimulation as an adjunct to periodontal therapy. Steffensen, B. et al. 46
CPITN assessment of periodontal disease in diabetic patients. Bačić, M. et al. 816
Hand versus ultrasonic instrumentation in the removal of endotoxins from root surfaces *in vitro*. Checchi, L. et al. 398
Effect of periodontal therapy on alveolar bone as measured by subtraction radiography. Schmidt, E. F. et al. 633
Evaluation of four modalities of periodontal therapy. Mean probing depth, probing attachment level and recession changes. Kaldahl, W. B. et al. 783
Evaluation of furcation region response to periodontal therapy. Kalkwarf, K. L. et al. 794
Radiographic evaluation of the effect of initial periodontal therapy on thickness of the maxillary sinus mucosa. Engstrom, H. et al. 604
Retained "hopeless" teeth. Effects on the proximal periodontium of adjacent teeth. DeVore, C. H. et al. 647

Treatment of endodontically and periodontally involved teeth. A case report. Barkhordar, R. A. 469

PERIODONTAL INDEX
Associations between bleeding and visual signs of interdental gingival inflammation. Caton, J. et al. 722
CPITN Assessment of periodontal disease in diabetic patients. Bačić, M. et al 816
Systematic errors in estimating prevalence and severity of periodontal disease. Kingman, A. et al. 707

PERIODONTAL LIGAMENT
The effects of exclusion of epithelium from healing periodontal pockets. McHugh, W. D. 750

PERIODONTAL POCKETS
Change in attachment level. Gunsolley, J. C. et al. 450
Comparison of scanning and transmission electron microscopy of the epithelial pocket wall in juvenile and adult periodontitis. Shafik, S. S. et al. 535
Systematic errors in estimating prevalence and severity of periodontal disease. Kingman, A. et al. 707

PERIODONTAL POCKETS, diagnosis
Histological characteristics associated with suppurating periodontal pockets. A case report. Passo, S. A. et al. 731

PERIODONTAL POCKETS, microbiology
Ultrastructural examination of human periodontal pockets following the use of an oral irrigation device *in vivo*. Cobb, C. M. et al. 155

PERIODONTAL POCKETS, therapy
The effects of exclusion of epithelium from healing periodontal pockets. McHugh, W. D. 750
The mechanism of pocket formation. A light microscopic study on decalcified human material. Takata, T. et al. 215
Ultrastructural examination of human periodontal pockets following the use of an oral irrigation device *in vivo*. Cobb, C. M. et al. 155

PERIODONTITIS, complications
Upper anterior tooth mobility. Selected associations in untreated periodontisis. Khoo, K. K. et al. 231

PERIODONTITIS, diagnosis
Comparison of scanning and transmission electron microscopy of the epithelial pocket wall in juvenile and adult periodontitis. Shafik, S. S. et al. 535
Histological characteristics associated with suppurating periodontal pockets. A case report. Passo, S. A. et al. 731

PERIODONTITIS, drug therapy
Clinical and microbiological effects of local tetracycline irrigation on periodontitis. Silverstein, L. et al. 301

PERIODONTITIS, etiology
Dental status of adults with and without periodontitis. Sewon, L. A. et al. 595
Microbiological and immunological studies of adult periodontitis in patients with noninsulin–dependent diabetes mellitus. Zambon, J. J. et al. 23

PERIODONTITIS, immunology
A comparison of the reactivity of *Eubacterium* species with localized and serum immunoglobulins from rapidly progressive and adult periodontitis patients. Martin, S. A. et al. 32
Microbiological and immunological studies of adult periodontitis in patients with noninsulin-dependent diabetes mellitus. Zambon, J. J. et al. 23

PERIODONTITIS, microbiology
Actinobacillus actinomycetemcomitans and *bacteroides gingivalis* activate human peripheral monocytes to produce interleukin–1 and tumor necrosis factor. Lindemann, R. A. et al. 728
In situ correlative immuno-identification of mononuclear infiltrates and invasive bacteria in diseased gingiva. Saglie, F. R. et al. 688
Microbiological and immunological studies of adult periodontitis in patients with noninsulin-dependent diabetes mellitus. Zambon, J. J. et al. 23
Refractory periodontitis; mixed infection with *Bacteroides gingivalis* and other unusual *Bacteroides* species. A case report. Van Dyke, T. E. et al. 184

PERIODONTITIS, occurrence
Dental status of adults with and without periodontitis. Sewon, L. A. et al. 595

PERIODONTITIS, prognosis
The relationship of interradicular width and alveolar bone loss. A radiometric study of a periodontitis population. Heins, P. J. et al. 73

PERIODONTITIS, therapy
Abnormal lymphocyte profiles and leukotriene B4 status in a patient with Crohn's disease and severe periodontitis. Engle, L. D. et al. 841
New attachment achieved by guided tissue regeneration in beagle dogs. Caffesse, R. G. et al. 589
Periodontal therapy. A summary status report 1987–1988. O'Leary, T., et al. 306
Root curettage and gingival repair in periodontitis. Biagini, G. et al. 124

PERIODONTITIS, juvenile
Actinobacillus actinomycetemcomitans and *Bacteroides gingivalis* activate human peripheral monocytes to produce interleukin–1 and tumor necrosis factor. Lindemann, R. A. et al. 728
Comparison of scanning and transmission electron microscopy of the epithelial pocket wall in juvenile and adult periodontitis. Shafik, S. S. et al. 535
Microbiological and clinical effects of surgery plus doxycycline on juvenile periodontitis. Mandell, R. L. et al. 373
Problems of genetic model testing in early onset periodontitis. Boughman, J. A. et al. 332
Tetracycline therapy in patients with early juvenile periodontitis. Novak, M. J. et al. 366

PERIODONTITIS, recurrent
Enzyme activity in crevicular fluid for detection and prediction of clinical attachment loss in patients with chronic adult periodontitis. Six month results. Lamster, I. B. et al. 516
Refractory periodontitis; mixed infection with *Bacteroides gingivalis* and other unusual *Bacteroides* species. A case report. Van Dyke, T. E. et al. 184

PERIODONTIUM
Partial regeneration of periodontal tissues using collagen barriers. Initial observations in the canine. Pitaru, S. et al. 380
Retained "hopeless" teeth. Effects on the proximal periodontium of adjacent teeth. DeVore, C. H. et al. 647
Severe localized destruction of the periodontium secondary to subgingival displacement of an elastic band. Report of a case. Marino, V. A. et al. 472

PHAGOCYTES
Quantitation of phagocytic cells in phenytoin–induced connective tissue proliferation in the rat. Dill, R. E. et al. 190

PHENYTOIN
Quantitation of phagocytic cells in phenytoin–induced connective tissue proliferation in the rat. Dill, E. R. et al. 190
PHYTOHAEMAGGLUTININ
Human gingival Langerhans cells as accessory cells in mitogen induced T cell responses. Newcomb, G. M. et al. 811
PIGMENTATION, ORAL
Pigmentation of the jawbones and teeth secondary to minocycline hydrochloride therapy. Cale, A. E. et al. 112
PLAQUE, drug therapy
Six–month effects of a sanguinarine dentifrice on plaque and gingivitis. Mauriello, S. M. et al. 238
PLAQUE, microbiology
Comparison of cultural methods and DNA probe analyses for the detection of *Actinobacillus actinomycetemcomitans*, *Bacteroides gingivalis*, and *Bacteroides intermedius* in subgingival plaque samples. Savitt, E. D. 431
Detection and distribution of *Actinobacillus actinomycetemcomitans* in the primary dentition. Alaluusua, S. et al. 504
The *in vitro* effects of amine fluorides on plaque bacteria. Kay, H. M. et al. 266
PLAQUE, therapy
The *in vitro* effects of amine fluorides on plaque bacteria. Kay, H. M. et al. 266
PLAQUE INDEX
Testing reliability of plaque and gingival indices. Two methods. Nordstrom, N. K. et al. 270
POLISHING
The effect of polishing pastes on composite resin surfaces. A SEM study. Serio, F. G. et al. 837
Subcutaneous facial emphysema secondary to use of the Cavi–Jet. Finlayson, R. S. et al. 315
POLYLACTIC ACID
New attachment formation following controlled tissue regeneration using biodegradable membranes. Magnusson, I. et al. 1
PROSTAGLANDIN E2
Lipopolysaccharide-stimulated PGE2 release from human monocytes. Comparison of lipopolysaccharides prepared from suspected periodontal pathogens. Garrison, S. W. et al. 684
PSEUDOTUMOR CEREBRI
Pseudotumor cerebri, a rare adverse reaction to tetracycline therapy. A case report. Minutello, J. S. et al. 848

R

RADIOGRAPHY, SUBTRACTION
Effect of periodontal therapy on alveolar bone as measured by subtraction radiography. Schmidt, E. F. et al. 633
ROOT
Evaluation of root–resected teeth. Results after 10 years. Bühler, H. 805
Scanning electron microscopy observations of initial clot formation on treated root surfaces. Steinberg, A. D. et al. 403
ROOT, instrumentation
Effects of an air–powder abrasive device used during periodontal flap surgery in dogs. Pippin, D. J. et al. 584
ROOT, demineralization
Clinical evaluation of the use of citric acid and autologous fibronectin in periodontal surgery. Caffesse, R. G. et al. 565
Effect of citric acid treatment on the migration of epithelium on root surfaces *in vitro*. Larjava, H. et al. 95
Growth and migration of gingival epithelial cells on mineralized and partially demineralized root surfaces in an *in vitro* system. Pitaru, S. et al. 531

S

SANGUINARINE
Six-month effects of a sanguinarine dentifrice on plaque and gingivitis. Mauriello, S. M. et al. 238
SEDATION, INTRAVENOUS
Assessment of stress during periodontal surgery with intravenous sedation and with local anesthesia only Shepherd, S. R. et al. 147
SILICONES
Severe gingival damage. After polysiloxane impression procedures. A case report. Shapiro, N. 769
SOCIETIES, DENTAL
Periodontics—East and West. (Editorial) 631
SPECIALISTS
Diplomate of the American Board of Periodontology: Is it in your future? Vandersall, D. 107
Who uses the services of specialists? Waldman, H. B. 326
STREPTOCOCCUS SANGUIS
The comparative cytotoxicity of periodontal bacteria. Stevens, R. H. et al. 741
STRESS
Assessment of stress during periodontal surgery with intravenous sedation and with local anesthesia only Shepherd. S. R. et al. 147
SURGICAL FLAPS
Clinical evaluation of the use of citric acid and autologous fibronectin in periodontal surgery. Caffesse, R. G. et al. 565
A comparison of mandibular lingual surgical flaps with and without a vertical release incision. Lynch, T. J. et al. 12
The effect of retained subgingival calculus on healing after flap surgery. Fujikawa, K. et al. 170
Effects of an air–powder abrasive device used during periodontal flap surgery in dogs. Pippin, D. J. et al. 584
New attachment achieved by guided tissue regeneration in beagle dogs. Caffesse, R. G. et al. 589

T

T CELLS
Human gingival Langerhans cells as accessory cells in mitogen induced T cell responses. Newcomb, G. M. et al. 811
TETRACYCLINE, adverse effects
Pseudotumor cerebri, a rare adverse reaction to tetracycline therapy. A case report. Minutello, J. S. et al. 848
TETRACYCLINE, therapeutic use
Clinical and microbiological effects of local tetracycline irrigation on periodontitis. Silverstein, L. et al. 301
Tetracycline therapy in patients with early juvenile periodontitis. Novak, M. J. et al. 366
Tissue interactions with dentin specimens after demineralization using tetracycline. Frantz, B. et al. 714

THALASSEMIA S
Periodontal disease in sickle cell disease subjects. Crawford, J. M. 164
TOBACCO
The effect of nicotine on the attachment of human fibroblasts to glass and human root surfaces *in vitro*. Raulin, L. A. et al. 318
TOOTH
Retained "hopeless" teeth. Effects on the proximal periodontium of adjacent teeth. DeVore C. H. et al. 647
TOOTH, UNERUPTED
Development of gingiva following surgical exposure of a facially positioned unerupted incisor. Lundberg, M. et al. 652
TOOTH ERUPTION
Development of gingiva following surgical exposure of a facially positioned unerupted incisor. Lundberg, M. et al. 652
TOOTH LOSS
Tooth loss in 1535 treated periodontal patients. Nabors, C. L. et al. 297
TOOTH MOBILITY
Upper anterior tooth mobility. Selected associations in untreated periodontitis. Khoo, K. K. et al. 231
TUMOR NECROSIS FACTOR
Actinobacillus actinomycetemcomitans and *Bacteroides gingivalis* activate human peripheral monocytes to produce interleukin–1 and tumor necrosis factor. Lindemann, R. A. et al. 728

U

ULTRASONICS
Hand versus ultrasonic instrumentation in the removal of endotoxins from root surfaces *in vitro*. Checchi, L. et al. 398
UNIVERSITIES
Periodontics—East and West (Editorial) 631

V

VENULES, HIGH ENDOTHELIAL (HEV)
Specialized postcapillary venules in human gingival tissue. Wynne, S. E. et al. 328

W

WOLINELLA RECTA
The comparative cytotoxicity of periodontal bacteria. Stevens, R. H. et al. 741
WOUND HEALING
Collagen linkage in periodontal connective tissue reattachment. An ultrastructural study in beagle dogs. Selvig, K. A. et al. 758
A comparison of mandibular lingual surgical flaps with and without a vertical release incision. Lynch, T. J. et al. 12
The effect of retained subgingival calculus on healing after flap surgery. Fujikawa, K. et al. 170
Fibrin and fibronectin sealing system in a guided tissue regeneration procedure. A case report. Prato, G. P. P. et al. 679
Histological study of the hydroxyapatite-collagen complex implants in periodontal osseous defects in dogs. Minabe, M. et al. 671
Initial wound healing attachments to demineralized dentin. Hanes, P. J. et al. 176
